up of representatives of the British Thoracic Society, Primary Care Respiratory Society UK, Asthma UK, British Lung Foundation, Association of Respiratory Nurse Specialists, Respiratory Education UK, Education for Health, UK Clinical Pharmacy Association Respiratory Group, Association for Respiratory Technology and Physiology, and the Royal Pharmaceutical Society.

- The key aim is to promote the correct use of inhaled therapies to improve the outcomes of patients with respiratory conditions. It is our vision that every patient is able to use their inhaler correctly and is taught and assessed as such, by an appropriately trained healthcare professional. We are keen that this is standardised across the UK, and documented in patient records and that healthcare professionals are held to account.
